

CIVIC EPISTEMOLOGIES

Development of a Roadmap for Citizen Researchers in the age of Digital Culture

First name and Surname

CIVIC EPISTEMOLOGIES Representative

Company/Organisation

- Project scope and Project objectives
- Consortium overview
- Project Workplan
- Case Studies & Pilot
- A questionnaire to cultural heritage institutions
- The Roadmap online

CIVIC EPISTEMOLOGIES has a twofold scope:

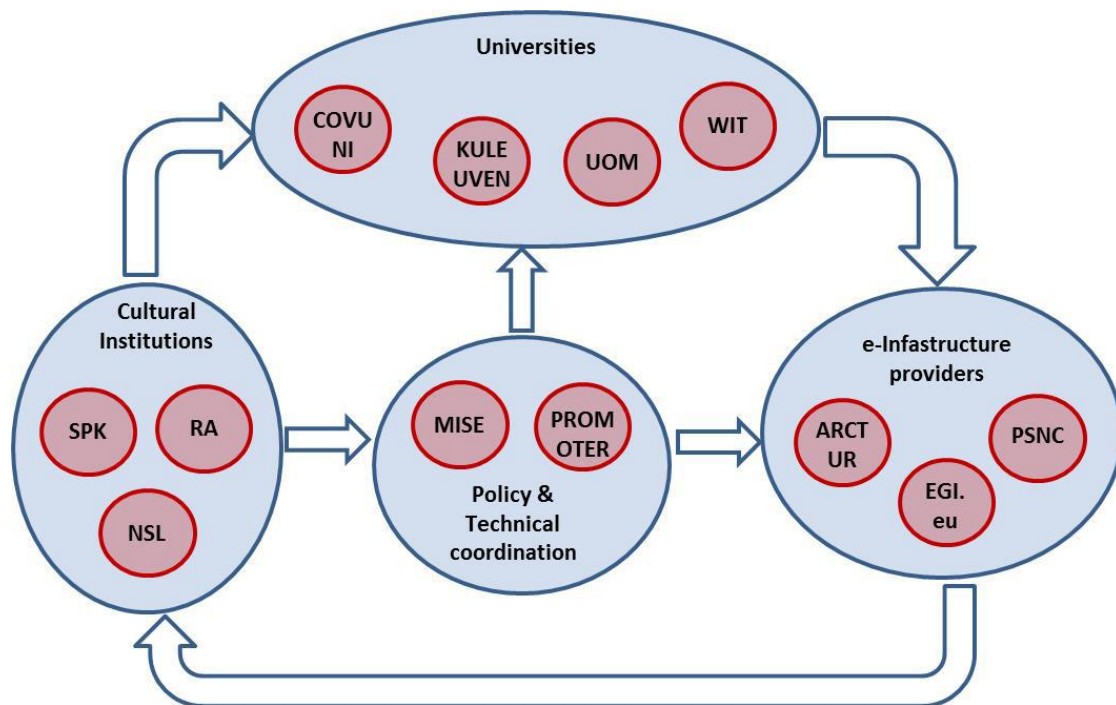

- to develop and validate a **Roadmap** for the use of **e-Infrastructures** to support the participation of European citizens in research on cultural heritage and digital humanities
- to contribute to improve **social cohesion** by understanding Europe's citizens common and individual cultures

Project Objectives

- To analyze the **needs** of researchers, citizens, cultural institutions and creative enterprises aiming to work together
- To propose a set of **priority steps** (for researchers, cultural institutions, students, scholars, e-infrastructure providers, creative industries) contributing to the definition of a shared **Roadmap**
- To validate the Roadmap through **pilots and case studies**
- To deliver a strong **communication and dissemination** plan
- To establish a durable **network of common interest** to connect cultural institution, research bodies, creative industries, e-infrastructures and citizen associations

12 partners from 11 European countries

Partner name	Country
Ministero dello Sviluppo Economico (MISE) - Coordinator	Italy
Promoter srl – Technical Coordinator	Italy
Riksarkivet (RA)	Sweden
Stiftung Preussischer Kulturbesitz (SPK)	Germany
National Széchényi Library (NSL)	Hungary
Katholieke Universiteit Leuven (KU LEUVEN)	Belgium
Coventry University (COVUNI)	UK
University of Malta (UoM)	Malta
Poznan Supercomputing and Networking Center (PSNC)	Poland
Waterford Institute of Technology (WIT)	Ireland
Arctur d.o.o. (ARCTUR)	Slovenia
Stichting European Grid Initiative (EGI.eu)	The Netherlands

Project workplan

- WP1: Project Management (WP leader: MISE)
- WP2: Identification of requirements (WP leader: UoM)
- WP3: Roadmap development (WP leader: RA)
- WP4: Pilot and Case Studies (WP leader: COVUNI)
- WP5: Dissemination, communication and sustainability (WP leader: PROMOTER)

Project's phases

A very ambitious and compact action: 16 months

Development Phase

November 2014 – November 2015

- The **Roadmap** is finalised, including a reflection on a possible **strategic research agenda**, and a **registry of services**, shared with a wide range of stakeholders
- **Pilot and Case Studies** are developed and their results are reflected in the Roadmap
- Project Dissemination and Communication is carried out, including the development of **targeted online training material**
- The Network of Common Interest is established through dedicated cooperation agreements

Case Studies and Pilot

The CIVIC EPISTEMOLOGIES Roadmap is validated by two case studies and one pilot whose results are analysed to extract knowledge, lessons learnt and best practice

Case Studies in Coventry

The case studies examines how community groups of citizens engage with cultural heritage and participate in the generation and reuse of cultural heritage using digital technologies:

1. one case study focuses on the participation of volunteers in cultural activities (e.g. theatre, dance, music, art, film making, photography);
2. the other case study works with a visitor app of Coventry City Council, providing new user perspectives and understandings of the role of cultural heritage knowledge in local economic regeneration and growth.

Pilot in Western Ireland

91

Dunkill castle

We were often told by the old people stories about old ancient structures especially Dunkill old castle. Well it is built on the river running from Annes town into the Suir, and it was called Danile and the river was called the River Ulease. Well it was occupied by the Powers, and it was attacked by a wing of Cromwell's soldiers. They were defeated and the gunners had to retreat. When the gunner exhausted called for a drink, and the drink he got was butter-milk which he thought very little of as he expected a drink of beer, so the defenders got huffed and raised the white flag at the same time.

The pilot runs an ethnographic study focused on Western Ireland, to record, capture and document heritage composed of stories heard from elderly relatives and neighbours.

A questionnaire for CH institutions

- An online questionnaire was launched on 4th December 2014 and closed on 22nd December 2014.
- It aimed to investigate the involvement of cultural heritage institutions with projects that involve citizen scientists and crowdsourcing activities.
- It attracted 85 responses from 23 countries
 - 19 from the EU
 - 2 from North America
 - 2 from Asia

A brief anticipation about the results

Even if the full analysis of the replies is under finalization right now, it can be anticipated that:

- the results confirmed the confusion between citizen science and crowdsourcing
- it showed a generally positive attitude towards the use of citizen science in the digital cultural heritage sector as an opportunity to be understood.

ROADMAP

[f](#) [t](#) [t](#) [v](#) [s](#)

The main objective of CIVIC EPISTEMOLOGIES is to design a sound Roadmap for the implementation of an e-Infrastructure:

- to enable creation, access, use and re-use of DCHH content,
- to provide learning resources,
- to provide communication services to multidisciplinary research teams located in different geographic places,
- to enable citizens to participate in a range of research goals established at European level together with cultural institutions and universities.

The ultimate aim is to address the scientific processes in DCHH and to bring citizens, through their associations, into the process of planning research.

Form and Content of the Roadmap

- WHY** - overall objectives for making a roadmap
- WHO** - who to address: target groups and/or user groups, stakeholders in general, members of society
- WHERE** - where to go (specific objectives and goals for the roadmap to be a basis for requirements like improving access, enhance quality of holdings/collections, social inclusion or...?)
- WHEN** - when shall these specific objectives and goals be reached (time line for implementing the roadmap)
- WHAT** - what to produce: a roadmap, but what are the basic drivers and the added values of citizen research and crowd sourcing as a method and what are benefits of using distributed e-infrastructure
- HOW** - how shall the roadmap be structured (address each targetgroups and/or user group or be structured on general level)

First version of the Roadmap

This first draft version of the Roadmap is now available for download as a work in progress document for discussion.

It will be presented during the [Workshop on the Roadmap](#) organised in Leuven on 20 February 2015, where all interested parties (e.g. the wider cultural heritage community, researchers, citizens associations, creative enterprises, e-Infrastructure communities, etc.) are invited to provide their feedback.

The objective of this first draft version of the Roadmap is to provide a description of what a Roadmap for the use of e-infrastructure to support citizen research could look like

PROJECT OVERVIEW
The CIVIC EPISTEMOLOGIES project is about the participation of citizens in research on cultural heritage and humanities. It is a generalist project of research, but specific technical knowledge is not generally needed in the creative industries sector. In addition, humanities scholarship is not yet taking full advantage of ICT to engage with wider audiences. New skills are needed to enable the cultural sector to grasp employment and engagement opportunities...

THE PROJECT IS LAUNCHED!
Held on September 11, 2014 by Maria Dobrowa - 0 Comments

The kick-off meeting of the CIVIC EPISTEMOLOGIES project took place in the wonderful surroundings of Rome, the " Eternal City". The meeting, hosted in the premises of the Italian Ministry of the Economic Development, was held in a very friendly and cooperative atmosphere and it was an opportunity for the actors concerned to coordinate themselves on the first activity to be pursued: that "fit" of the project, funded by the EC under the Seventh Framework Programme. It is very important and the impact of the objectives and strategies have been discussed to address all the tasks that have been part of the project... Continue Reading
