## Task 3.2 in DOW

- The task *will identify **tools, workflows, approaches, solutions, demonstrators, and applications** useful for supporting the involvement of citizens in the scientific development process*
- The tools and services will be collected and stored in publicly available, on-line registry.

## Deliverable D 3.1.

- based on the results of task 3.2
- refers to *existing projects and initiatives as well as **standards, tools, workflows, approaches, solutions, demonstrators and applications***
- *will include the description of the registry of services which is implemented online*
- Due to month 7 (Feb. 2015).

## Requirements and assumptions

(discussed during the Workshop in Malta)

- Easy, public, on-line access (**WWW**).
- **Filtering** the content of the registry using wide set of criteria in order to easy select interested items.
- **Dynamic** content :
  - User friendly, online interface to add and modify the collection.
  - available for all project participants and later on for wider group of experts (user-password access).
- Possibility of **importing** data from existing data sets.

Description iNaturalist is an online social network of people sharing biodiversity information to help each other learn about nature. It's also a crowdsourced species identification system and an organism occurrence recording tool. You can use it to record your own observations, get help with identifications, collaborate with others to collect this kind of information for a common purpose, or access the observational data collected by iNaturalist users.

## Content of the Registry

- Initial 15 items
  - Thanks for the contributors!
  - So far, focus on ideas –working projects (7/15)
    - easy to collect
- **Still need your input!**
  - What tools or services have you used in your projects?
  - Are there any applicable **standards**?
  - E-mail or use online interface
- The metadata might be also improved
  - description, webpage, category, field...

## Plans

- The content shall grow up, but it needs domain knowledge and contribution of the communities
- The online interface to enter the data should help
- Accounts for interested users will be created
- Any feedback regarding the functionality or content of the Registry is welcomed!
